# RT03 - Hand Held Remote Control

## Operating manual

⚠ **Please read this manual carefully before use.**

## 1. General

This is an Infra red Remote Control Unit, which means it must be pointed at the thermostat (or extra receiver) to operate.

Every time you change a parameter in the Remote Control, you must send it to the thermostat by pressing the "ON/SEND".

## 2. On/Off

- Press the ON/SEND button to activate the air conditioner / fan coil unit and/or updating information.

## 3. Fan Speeds

- Press the FAN button to switch between fan speeds:
  - High Speed          ❀
  - Medium Speed     ✿
  - Low Speed          ⚘
  - Auto Speed          **A**
- Press the ON/SEND button to send information to thermostat.

## 4.  Modes

- Press the MODE button to switch between:
  - ▪  Cool            ❄
  - ▪  Heat            ⧤
  - ▪  Auto change-over    𝔸
  - ▪  Fan only         ⚙
- Press the ON/SEND button to send information to thermostat.

## 5.  Temperature Set-Point

- Adjust the desired temperature using the (+) or (-) buttons.

  SET TEMP **23**°C

- Press ON/SEND button to send information to thermostat.

## 6.  Real Time Clock and Day

- Press the SELECT button - CLOCK SET will flash.

- Press the (+) or (-) buttons - the hours will flash.

  SU MO TU WE TH FR SA

- Adjust the hours using the (+) or (-) buttons.

- Press the SELECT again - minutes will flash.

  SU MO TU WE TH FR SA

- Adjust the minutes using the (+) or (-) buttons.

- Press the SELECT again to return to normal display mode.

- Press the ON/SEND button to send information to the thermostat.

## 7. Timer

**IMPORTANT: If no button is pressed for 10 seconds the display will return to normal display mode.**

**Start Time:**

- Press the SELECT button twice - PROGRAM & START (flashing) will appear on display.

- Press the SELECT button - the hours will flash.

- Adjust the hours using the (+) or (-) buttons.

- Press the SELECT button - the minutes will flash.

- Adjust the minutes using the (+) or (-) buttons.

**Stop Time:**

- Press the SELECT button - PROGRAM & STOP (flashing) will appear on display.

- Press the SELECT button - the hours will flash.

- Adjust the hours using the (+) or (-) buttons.

- Press the SELECT button - the minutes will flash.

- Adjust the minutes using the (+) or (-) buttons.

- Press the SELECT button - the TIMER will blink

- Select TIMER ON (black icon) or OFF
  (white icon) using the (+) or (-) buttons.

- Press the ON/SEND button to send the
  information to the thermostat.

  **Important: when the Timer is active, and there is power failure to the thermostat, the display will show "ON" flashing.**

## 8. Batteries Replacement

When the batteries are low, the display of the remote control will dim.

If the batteries will not be replaced the display will turn off completely.

Batteries replacement:
- Pull the batteries cover down to reveal the batteries.
- Remove the old batteries.
- **Wait for 10 minutes before installing the new batteries.**
- Install two new AAA batteries – Pay attention to the polarity.
- Return the batteries cover to place.

  **Important: The remote control will not operate unless at least 10 minutes pass between removing the old batteries and installing the new ones.**
